

Furniture Based on Your Needs, Your Budget, & Your Style

We have the freedom to purchase from worldwide resources to find the perfect fit for your function, aesthetic and price-point

We've broken free of the typical furniture dealers dilemma. Most furniture dealers are handcuffed to a group of furniture brands that they must sell to you whether they're the best fit for your project or not. We have the ultimate selection of options at our fingertips.

Below are 7 reasons why working with a design firm for furniture is better than a furniture dealer:

1. Unlimited Selections= Options Galore!

We have an endless list of direct vendors we work with. From bespoke one of a kind pieces to unique artistic finds, with varying price points to fit any budget. They all bring something unique to the table and each has its own specialties. No client is the same and we have the style and functionality options to fit anyone's needs.

2. Quick Ship Furniture- Fast and Easy Delivery

When time is of the essence and getting your team up and functioning is vital, we have quick ship options that look great and suit any job function from executive office to single desks, we've got you covered.

3. Your Space, Your Brand

We infuse your brand and culture into the meaningful details of your design. You don't just pick from the sizes and styles available in a retail store, we work with vendors that care about your needs. Our extensive experience in branding and culture creation provides expertise that goes beyond colors and textures.

4. Simple Pricing that Meets Your Needs

We're all about transparency. We make it easy for you to see your savings and understand your investment. We even pass along a portion of our designer savings to you.

5. From Worldwide Resources to Local Artisans

Our multi-cultural team and worldwide travels have allowed us to curate a collection of uniquely cool and interesting options for clients with a global view.

6. We're with You Every Step of the Way, from Concept to Installation Day

You'll never have to guess what the next steps are in this process. Your designers create a clear road map to help you visualize what comes next. Our simple 3 step process keeps your project moving along smoothly from beginning to end.

7. "Designer" Doesn't Mean Expensive

We combine value with vision. Valuable designer discounts available "only to the trade" means higher quality items may be within your budget. Our team educates you on all of your options to deliver the best value for your project.
